

# Benefit for Catherine Funk-Gronewold

*On July 30th, Catherine was diagnosed with Stage 2B breast cancer. Catherine also tested positive for the breast cancer gene called BRCA 2, as well as the HER 2 mutation which causes the cancer to grow rapidly. This means she has a long road ahead of her including an aggressive treatment plan. Catherine along with her husband Chris are fighting this difficult battle together. So far she has had 3 surgeries including a double mastectomy, and will require at least one more surgery after treatment. She will undergo 6 sessions of chemotherapy and will continue treating the mutation for a year. With the help of her amazing friends and family, we hope to offset some of the financial stress by hosting a benefit on her behalf to help with medical costs.*

**Date: Saturday, November 22nd. 2014**
